PECB BEYOND RECOGNITION | DEFENCE NETWORK

PECB Certified ISO 20400
Lead Manager

Help organizations integrate sustainability into their procurement processes, based on the recommendations of ISO 20400

Why should you attend?

The ISO 20400 Lead Manager training course helps develop the necessary abilities to support an organization in integrating the sustainable procurement guidelines of ISO 20400. It also provides information regarding the prioritization of sustainability issues and the planning and integration of sustainability within procurement processes and practices and throughout the supply chain by applying widely recognized sustainable procurement principles, procedures, and techniques.

After mastering the necessary concepts of sustainable procurement, you can sit for the exam and apply for a “PECB Certified Lead Sustainable Procurement Manager” credential. By holding such a credential, you will be able to demonstrate that you possess the practical knowledge and professional capabilities to support and lead sustainable procurement projects based on best practices.

Who should attend?

- Procurement directors, managers, officers
- Procurement strategy consultants
- Top management members who seek guidance on how sustainable considerations should be integrated at a strategic level
- Individuals responsible for the procurement of goods and services
- Individuals interested in sustainable development
